## Fuji Spray® Compressor Spray Guns

# LX-20™

## HVLP COMPRESSOR SPRAY GUN

The Fuji Spray® LX-20™ is a general purpose spray gun perfect for all types of professional spray finishing. The LX-20™ spray gun has been designed to replace conventional high pressure spray guns.

### WHY LX-20™?

- LX-20™ is designed for all types of coating including high solid materials, perfect for use in production settings
- Available in gravity feed or pressure feed models
- Especially suited to wood finishing and any fine-finishing application
- LX-20™ is compact and lightweight – easy to handle. The ergonomic design allows the spray gun to feel comfortable in the user's hand for extended periods of time
- LX-20™ technology also allows for little to no dilution for most coatings

### KEY FEATURES

- High transfer efficiency means less overspray that equals increased savings
- Optimized air cap design results in soft spray pattern and outstanding atomization
- Perfect for any type of professional spray finishing
- 100% stainless steel fluid passages suitable for water-borne and solvent-based coatings
- Recommended 15.2cfm at 26psi
- VOC-compliant
- Environmentally friendly spray gun

### DESIGNED FOR FULL SYSTEM APPLICATION

- Fan pattern size is adjusted with a simple, yet effective side mounted control
- The fan pattern width ranges up to 13"
- Precise fan adjustment reduces overspray and waste
- Nozzle and Air Cap sizes available (in mm): 1.0; 1.2; 1.4; 1.7; 2.0
- All LX-20™ spray guns are installed with 1.4mm
- LX-20™ spray guns kits will include a regulator and 2 additional tips (1.2 & 1.7)
- Excellent value

The Fuji Spray® LX-20™ HVLP compressor spray gun is perfect for all types of professional spray finishing projects from woodworking to bathtub resurfacing. Our systems are designed to give you the flexibility and professional finish you need at a price you can afford. Fuji Spray® is an award-winning Canadian manufacturer and designer of versatile, innovative and trusted spray systems for the professional and DIY markets.

# MPX-30™

## MID-PRESSURE COMPRESSOR SPRAY GUN

The MPX-30™ is ideal when you need a powerful gun that can deliver the ultimate in professional finishes. No matter the application, from woodworking with varnishes and stains, to automotive, or marine coatings; the MPX-30™ Compressor Gun is perfect for any type of professional spray finishing!

### WHY MPX-30™?

- MPX-30™ technology combines rapid application and higher transfer efficiency
- 100% stainless steel fluid passages suitable for waterborne and solvent-based coatings
- Perfect for any type of professional spray finishing
- Optimized air cap design results in soft spray pattern and outstanding atomization
- Multiple air cap sets allow for spraying of various materials in different viscosity levels (stains, glazes and automotive/marine coatings)
- Fan Pattern Control allows for precise adjustments to reduce overspray and waste

### KEY FEATURES

- Produces a softer, easier to control spray
- Utilizes more pressure than HVLP spray guns
- Recommended 13.8cfm at 36psi
- Faster application speed
- Higher atomization levels
- Higher transfer efficiency
- Less overspray and huge material savings
- VOC-compliant
- Environmentally friendly spray gun

### DESIGNED FOR FULL SYSTEM APPLICATION

- Solvent-based basecoats, low VOC colors or clear coat, high solids
- The Fan Pattern Control offers precise fan adjustment reducing overspray and waste. At a spray distance of 8" the fan pattern size ranges up to 13"
- Nozzle and Air Cap sizes available (in mm): 1.0; 1.3; 1.4; 1.7; 2.0
- Gravity Feed Gun is installed with 1.4mm
- Siphon Feed Gun is installed with 1.7mm
- MPX-30™ kits include a regulator and an extra tip

The Fuji Spray® MPX-30™ compressor spray gun is revolutionizing the automotive industry with its combination of rapid application speed and high transfer rates. Our systems are designed to give you the flexibility and professional finish you need at a price you can afford. Fuji Spray® is an award-winning Canadian manufacturer and designer of versatile, innovative and trusted spray systems for the professional and DIY markets.

# ABOUT FUJI SPRAY®

Fuji Spray® is a leading North American manufacturer of HVLP paint spraying equipment. We build self-contained low pressure spray systems.

Since 1986, Fuji Spray® has designed and built HVLP systems that have set the standard for the industry. HVLP is “Clean Technology”.

With over 30 years of experience, through innovation and improved technology, Fuji Spray® has continued to stay market leaders in their field. Our leading brand of products offers a wide range of turbine spray guns and compressor guns to meet the needs of the professional and serious DIYer – all of this supported by exceptional customer service each and every time.

Fuji Spray® headquarters is located in Toronto, Canada. Our products are designed with Canadian technology and are Canadian made.
