

## Choosing the best HVLP system for you

### DIY-PRO™ SERIES

Entry-level and budget-friendly

Ideal for a variety of finishes: stain, shellac, polyurethane and lacquer

2-stage (5 psi) motor

Pair with any M-Model™ spray gun

### MINI-MITE PLATINUM™ SERIES

Portable, lightweight and powerful

Ideal for a variety of finishes: stain, shellac, polyurethane, lacquer, oil & waterbased paints and primers

3-stage (6.5 psi) motor  
4-stage (9.0 psi) motor  
5-stage (9.5 psi) motor

Pair with Fuji Spray gun: T70™, T75G™ or G-XPC™

### Q PLATINUM™ SERIES

Quiet, power and control

Ideal for a variety of finishes: stain, shellac, polyurethane, lacquer, oil & waterbased paints and primers

3-stage (6.5 psi) motor  
4-stage (9.0 psi) motor  
5-stage (9.5 psi) motor

Pair with Fuji Spray gun: T70™, T75G™ or G-XPC™

Variable speed-control dial adjusts atomization of coating (Q5 PLATINUM™ only)

### D6™

Unmatched precision, unbeatable efficiency and undiluted

Ideal for high viscosity finishes: Catalyzed lacquers, primers, varnishes, urethanes, enamels, high viscosity industrial coatings, polyurethanes, oil based paints, water-based 2K acrylic topcoats.

6-stage (11.5 psi) motor

Pair with Fuji Spray gun: T70™, T75G™ or G-XPC™

Smart Select control power for precise and effortless adjustment of atomization
